THE BAND

Porch Rockers bring a road-worn, soulful blend of blues to stages across Arizona and beyond - rooted in tradition, driven by seasoned musicianship, and built around the simple idea that blues music should make people feel something.

The band was born during the pandemic, when guitarist **Mike Blommer**, harmonica player and vocalist **Steven Michael Jonas**, and bassist **Larry Lee Lerma** took to their driveways to play for neighbors looking for a little music and connection. What began as a way to lift spirits grew into Porch Rockers.

Today the group combines decades of touring, recording and live-performance experience. Blommer and Lerma are members of the **Arizona Blues Hall of Fame**, while drummer **Justin Donaldson** gives the full band its driving groove.

The band may have started in a driveway. The musicians didn't.
